DIBOND

Dibond signs are a strong, lightweight signage solution made from aluminium composite material. Suitable for both indoor and outdoor use, they offer excellent durability, weather resistance, and a smooth surface for high-quality printing. Ideal for shopfronts, building signage, hoardings, and displays, Dibond signs provide a clean, professional finish.

FOAMEX

Foamex signs are a lightweight and cost-effective signage option suitable for both indoor and short-term outdoor use. Made from rigid PVC foam board, they offer a smooth surface for high-quality printing. Ideal for promotional signage, displays, exhibitions, and informational panels, Foamex signs are easy to install and available in a range of thicknesses and sizes.

TRAY SIGNS

Tray signs offer a sleek, modern signage solution with folded edges that create a rigid, professional finish. Ideal for shopfronts, building fascias, and commercial exteriors, they provide excellent durability and visibility.

Available in a range of sizes, colours, and finishes, tray signs can be supplied with a powder coated finish, vinyl graphics or built-up lettering for added impact.

PROJECTING

Projecting signs extend outward from a building to maximise visibility from multiple directions. Ideal for shopfronts, high streets, and pedestrian areas, they help attract attention even where frontage space is limited. Available in a range of styles, sizes, and finishes, projecting signs offer a durable and effective way to display branding outdoors.

ACRYLIC

Acrylic signs provide a sleek, modern signage solution with a high-gloss, glass-like finish. Suitable for both interior and exterior use, they are ideal for offices, receptions, retail spaces, and directional signage. Durable and versatile, acrylic signs can be printed, applied with vinyl, or combined with stand-off fixings for a professional, high-end appearance.

EDEN

HAIR * BEAUTY * LOVE

3D LETTERS

3D letter signage creates a strong visual impact by adding depth and dimension to your branding. Commonly used on shopfronts, building facades, reception areas, and feature walls, it offers a premium, professional appearance.

Available in materials such as acrylic, foam, metal, and composite, with options for painted, polished, or illuminated finishes, 3D lettering can be tailored to suit both indoor and outdoor environments.

MODULAR

Modular signs offer a flexible signage system designed to adapt as information changes. Ideal for directories, wayfinding, and office or commercial environments, they allow individual panels to be updated or replaced without changing the entire sign. Available in a range of formats, sizes, and finishes, modular signs provide a practical, professional solution for evolving spaces.

DECALS

Window decals provide a versatile and eye-catching way to display branding, promotions, or key information on glass surfaces.

Ideal for shopfronts, offices, and interior glazing, they enhance visibility while still allowing light through. Available in a range of finishes and durability options, from short-term promotions or long-lasting displays.

MURALS

Murals create striking large-scale visuals that transform walls and interior spaces. Ideal for retail, offices, hospitality, and public areas, they enhance environments with impactful branding, artwork, or messaging. Available in a range of finishes, from Canvas, Leather, Woodgrain and Stone 3D patterns to create truly unique interiors. 160 micron, polymeric calendered film with a fire retardant with B s1/d0 certification.

VEHICLES

Vehicle signwriting and wraps transform cars, vans, and fleets into high-impact mobile advertising. Designed to fit vehicle contours seamlessly, they deliver bold branding and promotional messages while protecting the original paintwork. Suitable for full or partial coverage, vehicle wraps offer a durable, professional solution for long-term outdoor visibility.

Wrapped up

STICKERS

Stickers are a powerful, versatile way to extend your brand wherever your customers go. Whether used as product labels, packaging accents, promotional giveaways, or even decorative window decals, they offer a tangible, portable form of brand exposure that can be seen and shared repeatedly.

HI-TACK STICKERS

Eco solvent printed, 90 micron satin white, PVC film with hi-tack, pressure sensitive adhesive and over laminate finish.

Exceptional performance on hard to stick applications such as polypropylene, polyethylene, and powder coated paints.
